

When Time and Quality Matter

When you are planning your next project, you want the best. That's what you'll find here: A range of services no one can match.

From first stage planning to final stage flight testing, we offer our customers the most complete service options available in one company.

Companies around the world rely on our unique expertise, our attention to detail, and our top-flight service.

Quality and Performance

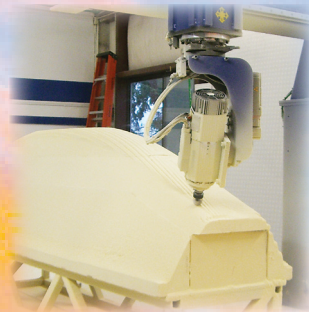

Our customers demand the highest quality and the highest performance possible.

- Experimental Aircraft
- High Performance Aerobatics
- Aerospace
- Race Cars
- Marine
- Transportation
- Recreational Vehicles

Composites Universal Group is uniquely qualified to provide superior service and superior quality to these industries.

Contact us today to learn more.

Our five axis computer numerically controlled (CNC) router cuts and shapes composite materials with exacting tolerances – as

little as one thousandth of an inch.

Contact us today to learn more about our impressive range of services.

The industry leader in high performance, high quality composites for the aeronautics, aerospace, transportation, marine and racing industries.

What We Do...

Composites Universal Group is an innovator in the manufacturer of sophisticated composite components. We are experts in the processing of advanced composite materials and assemblies.

- Proof of concept
- Design and innovation
- Composite tooling
- Component production
- Assembly and testing

Our expertise, service and innovation are unmatched in the industry.

Contact us today to explore how we can help make your dreams take off.

Composites Universal Group

Composite tools, components, and assemblies for high performance and industrial applications.

When you work with us you can expect...

- High Quality
- High Performance
- High Excitement

Composites Universal Group is proud to partner with some of the leading organizations in the aeronautics and aerospace industries including:

- Boeing
- SpaceX
- Cessna
- Airbus
- Piper Aircraft
- Hamilton Sunstrand
- MXR

...among many others.

"CUG performed beyond expectations with excellent workmanship, delivered on time and at a price that couldn't be matched by any other supplier. Two thumbs way up!"

- Ron Bauman, Hamilton Sunstrand Corporation

Where Dreams Take Off

We fulfill dreams through our highly-developed processes and our dedication to excellence.

"The MX2 is the best handling airplane I have experienced in my 20-something years of racing. It really is a lovely airplane to handle."

- Nigel Lamb, 8 time British Unlimited Aerobatic Champion

Creative Solutions

From a seed of an idea, to a drawing on a cocktail napkin, to a proven proof of concept – customers depend on us for creative solutions, demanding quality and unmatched expertise.

You will find our work anywhere speed, performance, excitement and innovation come together.
